

PUBLIC TRANSPORT

In March, the Government launched ‘**Bus Back Better**’ – a new National Bus Strategy for England.

As a result, we have been requested for our views regarding the present ‘bus services and how they can be improved.

Examples of what we might need are as follows:-

- a) more frequent services
- b) more evening or weekend services
- c) better ‘bus information
- d) simpler, better value fares.

Please let the parish council have your views.

Many thanks

Margaret Cockbill,

Parish Councillor, Transport Representative
