

Due to the evolving impacts of Covid-19 (coronavirus), guidelines have been issued by central Government to local authorities and their partners to provide support for the community response to the medical emergency, therefore the Council is setting up a 'hub' as a matter of urgency.

We are writing to all Parish Councils and Parish Transport Champions asking if people would be willing to volunteer their time in supporting a community response to assist those who are most vulnerable. Initially we are looking to gauge volunteer availability throughout the East Riding and not asking for your commitment to specific roles and types of work. Those who are already classed in the "vulnerable" category please ignore this email, and continue to follow the current advice provided by the Government and Health England on social distancing to reduce the transmission of the virus.

If you are interested, we ask that you email your contact details including your full name, email address and a contact telephone number to hive@heysmilefoundation.org. Additionally, those who have an up to date children's/adults DBS (Disclosure and Barring Service) certificate please include this information.

Thank you for your time.

Kind Regards
Transportation Services
